

KILL RICH FARMER

Mysterious Assailant Fires Fatal Shot Thru Window.

Louisburg Murder Similar to Famous McElheny Case.

HUNT FOR MISSING NEIGHBOR

Bloodhounds Followed Trail to Empty Farm House.

Miami County Town Rife With Lynching Spirit.

Louisburg, Kan., Oct. 19.—County authorities still were without information today that would tend to reveal a motive for the murder here last night of W. H. Patterson, who was shot and killed as he sat in the living room of his home. Bloodhounds, however, were put on the chase last night and a trail was found that led to a farm house. The owner was missing and the county is being searched for him today.

A man's footprint was seen in dried mud near the place where the telephone line to Patterson's home had been cut and close to it were the prints of a horse's hoof. Otherwise the authorities seem to be mysteriously balked.

Louisburg was the scene of excited gatherings today, many persons discussing the murder and speaking freely of mob violence in the event the murderer is found. It was pointed out today that the town is only twelve miles from Stilwell where is supposed to have originated the mob that lynched Bert Dudley, convicted of the murder of an aged German and his wife at Olathe, Kan., recently.

Thought Lamp Exploded.

Louisburg, Kan., Oct. 19.—William H. Patterson, 52 years old, a wealthy bachelor, was shot and killed last night while seated in his home near Louisburg. The murder was a shotgun and fired the charge thru a window near which Patterson was reading. The person firing the fatal shot escaped undetected in the confusion that followed. Patterson was shot in the right side of the neck.

His two sisters, Miss Mary Patterson, a trained nurse, and Miss Abbie Patterson, with whom he made his home, thought the reading lamp had exploded and rushed into the room to find their brother fallen over in his chair with blood rushing from the wound in his neck. The nurse started to give first aid treatment while her sister rushed to the telephone to summon help, but the telephone wires had been cut. Patterson still was conscious but died almost immediately.

The murder had many features similar to that of George McElheny, here a few years ago, which court procedure was unable to clear up. Authorities who rushed out to the Patterson home had in mind the McElheny murder, with its confusion of footprints near the scene and kept back by force the crowd which quickly gathered.

INJURES SHAKING HAND

Unmannered Enthusiast Scratches Wilson at N. Y. Demonstration.

Syracuse, N. Y., Oct. 19.—President Wilson received an ovation while passing thru New York state that appeared to be based on genuine political enthusiasm. The size of the crowds, however, and the manner in which they were limited only to the capacity of the stations.

At Albany 5,000 persons made a rush from the private Mayflower as soon as the train had been brought to a standstill. Mr. Wilson was on the rear platform with Secretary Tamm and began to shake hands with those nearest him. A moment later it was observed that his right hand was bleeding profusely. A deep cut had been inflicted on the top of the second finger, supposedly by the finger nail of one of the enthusiasts.

Mr. Wilson quickly wrapped his handkerchief about the injured finger and continued to shake hands until the train was in motion again. Later Dr. C. T. Drayson, a physician, examined the wound and announced that it would be unwise for the president to shake hands any more during the remainder of the trip.

WOMEN MAD AT BAKER

Secretary of War Likened Washington's Army to Mexican Bandits.

New York, Oct. 19.—Members of women's patriotic organizations throughout the country are bitter in their criticism of Secretary of War Baker for likening the soldiers under Washington to Mexican bandits. Telegrams expressing indignation poured into the headquarters of such organizations. Leaders condemning the "unpatriotic and baseless criticism of the heroes of '76 by the secretary of war" will be sent to every member of the Grand Army of the Republic, the Daughters of the Revolution, Mrs. Everett M. Rayner, president general of the organization, announced. Formal action will be taken by the society at the next council meeting on November 2.

Similar organizations which announced the determination to go on record against the secretary are the Woman's Relief Corps, an auxiliary of the Grand Army of the Republic, with a national membership of 150,000; the Daughters of 1912, Daughters of the Union and several chapters of the Daughters of the American Revolution.

VICTORY TO SERBS

Rout Bulgars From Recaptured Town of Brod.

French Smash Thru German Line at Peronne.

London, Oct. 19.—Despite the notably unsettled conditions in Greece, which apparently have militated against a determined pushing of the entente operations on the Macedonian front, fresh and successful attacks by French and Serbian troops are reported. Paris announces a Serbian victory in the Cerna river region southeast of Monastir, where the town of Brod within the bend of the Cerna is declared again to have been wrested from the Bulgarians, who recently re-captured it.

A delayed report from Sofia announced that Serbian attacks in the Cerna sector had failed of success. Interest attaches to further possible developments in the Vardar region in the center of the Macedonian front where little artillery activity has been reported during the vigorous operations on either flank. Last night's announcement from Paris that hostile trenches west of the Vardar had been penetrated a quarter of a mile in an attack by French troops indicates the possibility that the entente offensive in force is to be extended to this important section of the front.

In pursuing their closing in operation on Peronne the French on the Somme front are continuing their recently renewed pressure southwest of the town between Blietche and La Maisonette, on the opposite bank of the river. They carried the entire German first line in this sector yesterday and are now successfully attacking several counter attacks but extended their gains, the Paris war office reports.

TANKS NOT MADE HERE

Armored Cars of English Invention, Says American Exporter.

New York, Oct. 19.—A denial that the British armored motor "tanks" used in the Somme offensive are of American manufacture was made today by George A. Gaston, president of an exporting firm at 140 Broadway. Mr. Gaston, whose firm has supplied the allied powers with almost all their American motor trucks, has just returned from a European trip, during which he visited the western front and saw the "tanks" in operation. He says they are of English invention and manufacture.

JAPAN-CHINA AGREE

Will Permit Jap Police in Amoy to Suppress Riots.

Amoy, Oct. 19.—Japanese police are expected here to assist the Chinese authorities in maintaining order. Japan offered to send the police and the offer was accepted. The Japanese are to remain on the premises of the Japanese consulate until their assistance was requested. Amoy has been a center of activity for the southern rebels for several months and considerable rioting has been reported there.

ENDS THIRD TRIP

Hughes Travels East Thru Michigan Towns Today.

Has Covered Distance Equal to Earth's Circumference.

LONGEST TOURS IN HISTORY

G. O. P. Nominee Addresses Large Crowd at Saginaw.

Has Always Stood for Peace, Says Candidate.

Bay City, Mich., Oct. 19.—Working eastward across Michigan today, Republican Nominee Hughes wound up the last day of his third campaign trip. Tomorrow afternoon he reaches New York again. He will rest for a couple of days and then start out anew on a trip the exact itinerary for which is as yet incomplete. He has speaking dates tentatively arranged in Brooklyn, Boston, Hartford, Terre Haute, Ind., Columbus, O., and several other mid-western cities. By the time Hughes reaches New York he will have covered about 25,000 miles of campaigning in three trips since August 5. The mileage of his present trip, which started October 2, totals 5,297 and he has gone at least 300 miles farther in automobiles in that period. His previous traveling has covered about 20,000 miles by railroad and auto.

No other presidential candidate in history has covered so much territory in appealing to the voters. Since August 5, Hughes has made in the neighborhood of 500 speeches. Today Hughes was scheduled for speeches here at Saginaw and Flint. From the last named place he goes direct to Toledo, stopping there for fifteen minutes, and winds up the day and the trip with a night meeting at Youngstown, O.

Stands for Peace.

Saginaw, Mich., Oct. 19.—Charles E. Hughes delivered two speeches here and at Bay City today before audiences that packed the halls where he spoke. The nominee assailed the administration for the Underwood tariff and Adamson law and repeated his denial of the charge that a vote for him meant a vote for war.

"Men are going abroad in this land," Mr. Hughes said, "saying that a vote for me is a vote for war, because I have criticized weakness and vacillation on the part of the administration. A vote for me is a vote for permanent peace based on self respect and the esteem and respect of others."

"I have but one desire, and that is an intense desire to go along in our peaceful pursuits promoting our prosperity and having a just distribution of the gains of labor, by having a properly upon which we can build a structure of social justice. Every one desires peace. No one more than I. Why, I have devoted all my life to the institutions of peace, institutions that deal with a peaceful settlement of controversies."

"But in this world, you have got to maintain not only your security by proper preparation against every emergency but you have got to maintain your security by winning the confidence and esteem of other nations. We can not do that if we do not maintain the dignity of our own citizenship."

DEPORT 2000 BELGIANS

Non-Workers Sent From Towns—Others Forced to Toil.

Amsterdam, Oct. 19.—The telegraph says it has received information from the frontier that the Germans in addition to deporting 2,000 civilians from Ghent are taking similar action in other parts of Belgium. Quartermaster General Von Sanderweh has announced that the new paper says that persons able to work may be forced to do so, even outside the villages in which they reside, in the event of being compelled to accept relief from others owing to gambling, drunkenness, laziness or lack of employment.

Furthermore any inhabitant may be compelled to give assistance in case of accident, danger, emergency or public disaster even outside the community in which he resides. Any one who refuses to work the newspaper says is liable to imprisonment for three years or a fine of 10,000 marks.

NATIONAL LEAGUE WEAK

President Tener Admits Organization Is Not as Strong as A. L.

New York, Oct. 19.—The National league must be strengthened, in the opinion of John K. Tener, its president. M. Tener says he believes the 21 player limit has worked against the league in world's series games and that the limit will be increased next year.

"There is no use in the National league making any excuse or giving any alibi," said Mr. Tener. "We have played poor ball, very poor ball, in the last few series. Our pitchers held up, but that was all. Every effort must be made all around to strengthen the league."

It was reported today that President Tener, Harry Hempstead, president of the New York National club, and John J. McGraw, the club's manager, will meet here today or tomorrow to talk over McGraw's criticism of the New York players in their final series with Brooklyn. As a result of this conference a decision may be reached as to whether the National league shall investigate McGraw's accusation that his men were playing in indifferent fashion.

UP TO ONE COUNTY

Wyandotte May Be Wedge in Congressional Fight.

Uncertainty Among Friends of Ed Little and Joe Taggart.

Iola, Kan., Oct. 19.—Just one lone county may settle the congressional fight in the Second district. That county is Wyandotte. All thru the Second district there is a feeling of unrest concerning the things the town is appealing to the voters. That at the mouth of the Kaw may do. That uncertainty concerns the friends of Col. Ed C. Little, Republican nominee. With equal force it disturbs the men who hold postoffices and carry banners and for Congressmen Joseph Taggart, Democrat.

There isn't any question about conditions here. It is a statement typed statement from Republican leaders thruout the district. Then they add: "What do you know about Wyandotte?"

Ask any Republican who knows politics in the district and he will talk in almost those very words. Then walk across the street and shake hands with the Democrat postmaster, the county chairman or a good old Bourbon who is a Democrat away down deep. In his boots and hopes that some day the distribution of pie will be made universal—for the Democrats.

"Oh, things are coming along fine—fine. Yessir. You bet. Why, we are in good shape here. And, oh, man, what do you know about Wyandotte county?" That's the Democrat side of it.

Little's Chances. Colonel Little has an excellent chance for the congressional job, viewing the situation a safe distance from Wyandotte county. Every one has a real, honest to goodness, fire and burglar proof guarantee on the Wyandotte vote, you might as well cash it. That does it. It is worth real money in the district.

Congressman Taggart has an organization in the district that is quite worth while. It is a machine that was built for speed, endurance, comfort and safety. It was built to keep Taggart in congress. And the drivers know all the rough places in the road. Make a note of that. They know just what they are driving for, too.

Wyandotte Left Over. So, figuring thus and keeping in mind a plurality of something more than 4,000 which Wyandotte county gave Taggart in 1914, you may begin to reckon for you may begin to reckon for that tremendous plurality in Taggart's home county, Anderson, Johnson and Miami gave the Democrat congressman pluralities in 1914. John H. Crier, Republican, carried the remaining counties, but his vote was nearly 4,000 short of an election. In other words, Taggart beat Wyandotte in reserve after running Crier to a white heat in all other counties.

This week Governor Capper is campaigning for Little in the Second district. He will not enter Wyandotte county at this time. That county will be saved for the final swing when the Republican state committee will use its most effective workers in an effort to put the county "right." And if Wyandotte registers "right" for Little—good night. The most puzzling congressional fight in the state is settled and another congressman is added to the Republican roll call.

FRISCO STRONG POINT

Large Coast Defense to Be Established at California Port.

San Francisco, Oct. 19.—The coast defenses of San Francisco have been picked by the war department to be the most strongly garrisoned coast artillery establishment in the United States or any of the islands. This is shown by a general order of the war department received at western department headquarters here.

The forts around the bay will be manned by 1,821 soldiers as soon as the first increment under the congressional act approved June 3, 1916, is distributed in accordance with the reorganization plan approved by the president.

Other Pacific coast fortifications will be garrisoned as follows: San Diego, 216 men; Columbia River, 324; Puget Sound, 1,389.

Next to San Francisco in strength will be the garrison of Manila and Subic bays, numbering 1,698 men. In Hawaii, 1,188 men will be stationed at the forts of Oahu.

TO ARM MERCHANTMEN

If Britain Does So, Germany Will Retaliate With U-Boats.

Berlin, Oct. 19.—The Kriegs Zeitung, the evening edition of the Lokai Anzeiger published here, reports that the British have ordered the arming of all merchantmen, and says that as a result Germany may be forced to take up a sharper submarine campaign with consequent endangerment of German-American relations. In continuing:

"If it is true that England actually intends to arm all its merchantmen with heavy and therefore far-carrying guns, and thus label them plainly as warships intended for attack, it can not be avoided that whether we wish to or not, we must give a sharper tendency to our submarine campaign."

Smart New English COSTUME VELVETS

Why Suffer From Migraine or Sick Headache?

Dr. J. J. Caldwell says that this exceedingly distressing disease does not shorten life, but does not appear to be curable. Sufferers from this affliction are condemned to undergo the periodical attacks every few weeks until they are forty years of age, after which the attacks are less frequent, and finally disappear entirely. Palliative measures during the attack are all that it is possible to suggest, while care in the diet is the best preventive measure. An attack may often be prevented by taking two anti-kamnia tablets when the first symptoms appear, and one anti-kamnia tablet every two hours during the attack shortens it, eases the pain and brings rest and quiet. Anti-kamnia tablets may be obtained at all druggists. Ask for A. K. Tablets. They quickly relieve all Pain.
